Education

**Malla Reddy University - B. TECH,
Computer Science - Data Science**
(2023 - 2027) - Hyderabad
CGPA: 7.96 (3rd Year 1st semester)

**Loyola Academy Junior College
(Class 12th)**
(2021-2023) - Alwal
Percentage: 89 %

**Sadhu Vaswani International School -
(CBSE Class 10th)**
(2013 - 2020) - Hyderabad (Kompally)
Percentage: 77%

Key Skills

Backend: Node.js, Express.js, REST APIs

Frontend: React.js, Tailwind CSS, Next.js

Database: MongoDB, MySQL

Languages: JavaScript, Python, Java

Tools: Git, GitHub, Postman, VS Code

Concepts: Data Structures, OOP, API Design

Profile

Full Stack Developer with hands-on experience building backend systems using Node.js, Express, and MongoDB. Experienced in designing REST APIs, authentication systems, and real-world applications like an ContentAI with OpenAI API. Strong interest in scalable system design and high-performance backend development.

Open-Source Experience

Contributor – Social Summer of Code (Formerly Script Foundation)

- Contributed to open-source projects by fixing issues and improving existing features
- Collaborated with developers using Git and GitHub workflows (pull requests, code reviews)
- Worked on debugging, code optimization, and feature enhancements
- Gained experience in real-world development practices and version control

Projects

ContentAI

- Built a full-stack AI content generation platform using Next.js, FastAPI, and Supabase
- Implemented secure user authentication and real-time content editing features
- Designed backend APIs for handling AI prompts and dynamic content generation
- Integrated OpenAI API for context-based content generation

Live: [ContentAI link](#)

GitHub: [ContentAI \(Source code\)](#)

Personal Portfolio

- Developed a responsive portfolio using React, Vite, Tailwind CSS, and Express.js
- Built backend APIs to manage dynamic project and contact data
